

Internship Portal Backend API Documentation

Base URL

```
http://localhost:5080/api
```

Authentication

Most endpoints require:

```
Authorization: Bearer YOUR_JWT_TOKEN
```

Authentication APIs

Register Student

Endpoint

```
POST /api/auth/register
```

Body

```
{
  "fullName": "Student User",
  "email": "student@gmail.com",
  "password": "Student@123",
  "confirmPassword": "Student@123",
  "role": "Student"
}
```

Response

```
{
  "success": true,
}
```

```
{
  "message": "OTP sent successfully"
}
```

Register Admin

Endpoint

```
POST /api/auth/register-admin
```

Body

```
{
  "fullName": "Admin User",
  "email": "admin@gmail.com",
  "password": "Admin@123",
  "confirmPassword": "Admin@123"
}
```

Verify OTP

Endpoint

```
POST /api/auth/verify-otp
```

Body

```
{
  "email": "student@gmail.com",
  "otp": "123456"
}
```

Login

Endpoint

```
POST /api/auth/login
```

Body

```
{  
  "email": "student@gmail.com",  
  "password": "Student@123"  
}
```

Response

```
{  
  "isSuccess": true,  
  "message": "Login successful",  
  "token": "JWT_TOKEN",  
  "expiration": "2026-05-30T12:00:00",  
  "role": "Student"  
}
```

Student Profile APIs

Create Student Profile

Endpoint

```
POST /api/studentprofile
```

Authorization

```
Student Only
```

Body

```
{
  "phoneNumber": "9876543210",
  "department": "Computer Science",
  "cgpa": 8.5,
  "backlogs": 0,
  "graduationYear": 2027,
  "skills": "C#, ASP.NET Core, Angular",
  "resumeUrl": "https://example.com/resume.pdf"
}
```

Update Student Profile

Endpoint

```
PUT /api/studentprofile
```

Get My Profile

Endpoint

```
GET /api/studentprofile/me
```

Internship APIs

Create Internship

Endpoint

```
POST /api/internship
```

Authorization

```
Admin Only
```

Body

```
{
  "title": "Backend Developer Intern",
  "description": "ASP.NET Core internship",
  "companyName": "TechCorp",
  "location": "Kochi",
  "stipend": 15000,
  "durationInMonths": 6,
  "minimumCGPA": 7.0,
  "allowedBacklogs": 0,
  "requiredSkills": "C#, SQL, Angular",
  "allowedDepartments": "Computer Science",
  "graduationYear": 2027,
  "totalSeats": 10,
  "startDate": "2026-06-01",
  "endDate": "2026-12-01",
  "registrationDeadline": "2026-05-30"
}
```

Get All Internships

Endpoint

```
GET /api/internship
```

Query Parameters

Parameter	Example
search	backend
companyName	TechCorp
department	Computer Science
location	Kochi
minimumCGPA	7
sortBy	deadline
descending	true
pageNumber	1

Parameter	Example
pageSize	10

Example

```
GET /api/internship?search=backend&pageNumber=1&pageSize=5
```

Get Internship By Id

Endpoint

```
GET /api/internship/{internshipId}
```

Update Internship

Endpoint

```
PUT /api/internship/{internshipId}
```

Delete Internship

Endpoint

```
DELETE /api/internship/{internshipId}
```

Application APIs

Apply Internship

Endpoint

```
POST /api/application/apply
```

Authorization

Student Only

Body

```
{  
  "internshipId": "INTERNSHIP_ID"  
}
```

Get My Applications

Endpoint

GET /api/application/my-applications

Get Internship Applications

Endpoint

GET /api/application/internship/{internshipId}

Authorization

Admin Only

Update Application Status

Endpoint

PUT /api/application/{applicationId}/status

Body

```
{  
  "status": "Accepted",  
  "adminRemarks": "Excellent profile"  
}
```

Status Values

Pending
Accepted
Rejected
Completed

Complete Internship

Endpoint

```
PUT /api/application/{applicationId}/complete
```

Authorization

Admin Only

Body

```
{  
  "certificateUrl": "https://example.com/certificate.pdf"  
}
```

Features

- Marks internship completed
- Sends certificate email
- Updates completion status

Feedback APIs

Create Feedback Form

Endpoint

```
POST /api/feedback/create-form
```

Authorization

Admin Only

Body

```
{
  "internshipId": "INTERNSHIP_ID",
  "title": "Backend Internship Feedback",
  "description": "Share your internship experience",
  "releaseDate": "2026-05-28T10:00:00",
  "submissionDeadline": "2026-06-05T23:59:59",
  "allowAnonymous": true,
  "maxRating": 5
}
```

Features

- Feedback release management
 - Deadline support
 - Anonymous feedback support
 - Email notifications
-

Submit Feedback

Endpoint

```
POST /api/feedback/submit
```

Authorization

Student Only

Body

```
{
  "feedbackFormId": "FEEDBACK_FORM_ID",
  "rating": 5,
  "comments": "Excellent internship experience",
  "isAnonymous": false
}
```

Get Internship Feedbacks

Endpoint

GET /api/feedback/internship/{internshipId}

Training Material APIs

Upload Training Material

Endpoint

POST /api/trainingmaterial/upload

Authorization

Admin Only

Content Type

multipart/form-data

Form Data

Key	Type
internshipId	Text
title	Text
description	Text
acceptedStudentsOnly	Text
completedStudentsOnly	Text
file	File

Features

- PDF/Image upload
 - Access control
 - Automatic email notification
 - File validation
-

Get Student Materials

Endpoint

```
GET /api/trainingmaterial/my-materials
```

Authorization

```
Student Only
```

Get Internship Materials

Endpoint

```
GET /api/trainingmaterial/internship/{internshipId}
```

Delete Material

Endpoint

```
DELETE /api/trainingmaterial/{materialId}
```

Security Features

Implemented

```
JWT Authentication  
Role Authorization  
Password Hashing (ASP.NET Identity)  
OTP Verification  
Global Exception Middleware  
CORS Configuration  
Soft Delete  
File Validation  
Email Verification
```

Roles

Student

Can:

```
Register  
Login  
Create profile  
Apply internships  
View materials  
Submit feedback  
View certificates
```

Admin

Can:

```
Create internships  
Manage applications  
Accept/Reject students  
Complete internships  
Upload materials  
Release feedback forms  
View feedbacks
```

File Upload Locations

Training Materials

```
wwwroot/training-materials
```

Resumes

```
wwwroot/resumes
```

Frontend Integration Notes

Angular Frontend Base URL

```
http://localhost:5080/api
```

Required Headers

```
Authorization: Bearer JWT_TOKEN  
Content-Type: application/json
```

Upload Requests

Use:

```
multipart/form-data
```

NOT raw JSON.

Recommended Angular Features

```
Reactive Forms  
Regex Validation  
Angular Material  
Lazy Loading  
Route Guards  
JWT Interceptor  
Error Interceptor  
Standalone Components  
RxJS
```

Backend Modules Summary

```
Authentication Module  
Student Profile Module  
Internship Module  
Application Module  
Feedback Module  
Training Material Module  
Email Notification Module  
File Upload Module
```

Current Backend Status

```
Backend is frontend-ready.  
Core workflow systems completed successfully.
```
